

**Easy and intuitive for kids to use  
and even easier for you to manage**

***Promotes self-directed,  
intrinsically motivated learning***

***Teacher-guided, individualized  
curriculum aligned to state standards***

***Carefully selected educational content  
for children 5-12 years old***

## Your *new* classroom assistant

The Student Learning Center™ (SLC) from AWE provides children with a self-directed, intrinsically motivated learning environment—which has been proven through scientifically-based research to effectively engage children in learning activities for extended periods of time. The SLC helps students *learn how to learn* and to *learn heuristically*.

The SLC learning environment facilitates parental involvement—another proven predictor of early learning success—as it features daily activity reports, progress and achievement reports, and a portfolio of activities for each student.

The Student Learning Center is currently available in English and Bilingual Spanish, but other language editions may be available based on demand.

## Student Learning Center: Teacher-guided, individualized curriculum

The Student Learning Center is perfect for public and private learning institutions. It enables teacher-guided, individualized curriculum for each student that aligns with national and state educational standards. All subject areas are covered: math, reading, writing, science, music, research, art, history, language, and computer literacy.

- Students select their photo to sign onto the SLC
- Teachers schedule individualized learning time for students, choosing content that supports the day's lesson
- Content can be used individually or by the whole class, as the SLC is whiteboard friendly
- Learning portfolios are created and may be shared with parents
- Supplemental materials provide lesson plans and activities

# Create a blended learning environment

## Include parents with the ELF™ Child-Safe Browser

The **ELF™ Child-Safe Browser** allows children to safely explore carefully chosen, highly engaging free-use educational resources on the Internet.

**ELF™ Reading & Reference** is an expanded version that also includes exclusive access to Speakaboos interactive storybooks and Encyclopedia Britannica for Kids. Both of these ELF versions can be given to parents for free!

With both versions of ELF, young students can only visit sites that are appropriate, educational, and fun. You can brand ELF with your logo, add and delete sites, and more!

## Track progress and interest

The SLC tracks students' activities, interests, and usage in key areas. Students build their learning portfolios throughout the year and teachers use these to evaluate their progress.

Teachers can access key online reports that provide a wealth of information from anywhere on the Internet cloud.

- Outline each students' learning portfolio
- Provide daily activity reports to send home to parents
- Track the time spent on each program used
- Indicate areas of student interest for development plans
- Show hidden assessments for progress tracking

***"These computers are great! Both staff and students love them, and they're no trouble to use. The staff especially likes that there is so much content and curriculum built right in. They help our classroom teachers with our after-school programs."***

— Viki Balet, Kyds, Inc., Beyond the Bell, LAUSD

## Carefully selected content that is fun and educational

AWE employs a comprehensive review process to evaluate and select content. This process ensures the highest quality, age-appropriate, most effective content. Many titles have built-in progress and assessment tools.

The SLC seamlessly combines classic educational content from various publishers including Edmark, DK, and Knowledge Adventure with ingenious new creations such as *Math Doodles* and *Giggles*. AWE carefully tracks utilization statistics in order to make annual improvements to the content on the SLC.

**Ideal for individual and group lessons**

## Our product options meet your unique technical needs

The Student Learning Center is available in various configurations to meet your needs. You can choose a complete hardware/software bundle or the software-license version, which can be installed on compatible computers.

Computer platforms include all-in-one touchscreen, standard desktop, netbook, laptop, and Apple iMac (please contact us for availability). All of these editions require minimal technical set-up or support. The SLC is truly a worry-free classroom assistant.

## Incomparable service and support

AWE products are designed to be easy-to-use right out of the box with minimal training and support required. To help answer any questions, free support is available via phone or email.

The AWE Help Desk team, a well-trained and experienced staff, provides the gold standard for service and support. Talk to current customers—AWE's most enthusiastic sales people!

***These computers are very easy to administer. When I do have a question, I have found their support department to be very responsive. And using the administrative controls to access reports and other features is simple.***

- Gary Krajacic, Technology Administrator, Fayetteville Free Library

## Warranty & Upgrades - *Now included in the purchase price!*

AWE provides a comprehensive Warranty & Upgrades service for the Student Learning Center included in the purchase price. Each Student Learning Center (SLC) includes a standard three-year warranty plus annual upgrades to the latest software version of the product throughout the life of the initial warranty. After the third year, we offer the optional Warranty & Upgrades Extend Plan for one or two additional years. This service ensures your SLC will always be up-to-date with the latest software version throughout the life of the hardware warranty.
